The Honorable Frank Carlson
United States Senate
Washington, D. C.

Dear Frank:

I enclose a copy of the notes which I made for the re-dedication of the Georgetown Presbyterian Church. I expanded this considerably in delivery but the speech was a very informal affair.

I feel very strongly that one of our greatest weapons in the whole Communist struggle is the religious and moral issue and I think a speech from you on this subject would be of the greatest significance. If I can help by getting together any material on what the Soviet have been trying to do to the church in Russia and the European Satellites, I should be delighted to do it. I fear that these notes will be of little use to you.

Faithfully,

Allen W. Dulles
Director
